

Administrative Director of Transplant Services

Hackensack Meridian Health Hackensack, New Jersey

One of the nation's Top 50 hospitals. One of New Jersey's top choices for opportunity.

As New Jersey's largest and busiest medical center, we offer challenging and rewarding career paths alongside the healthcare industry's most talented, compassionate, and dedicated professionals. The very factors that drive Hackensack University Medical Center to national success are the same ones that drive America's best to us.

Qualified candidate will be responsible for the direction, management of the operational, financial, programmatic, and personnel activities for Transplant Services under the direction of the Chief of Transplant Services and the Administrator of Clinical Services Growth and Development. Additional responsibilities include directing the day-to-day operations of all Transplant Services activities, personnel and faculty management, budgeting, cost reporting, cost control, contract review, marketing and planning. Will also work closely with a variety of entities, coordinating the activities of the service line across the enterprise and represents the interests of Transplant at all times.

Minimum of 5 – 8 years relevant experience in the organ transplant management and administration of a large academic unit, preferably one with multiple missions that require the integration of clinical care with a high level of scholarly performance required. Master's degree required. Must have broad knowledge of modern health care administration, principles and practices within a managed care environment and/or an academic medical center.
