

**Transplant Center
Massachusetts General Hospital
Boston, MA**

The Massachusetts General Hospital Transplant Center is world renowned for its innovation, research, and clinical expertise. The Center is the largest in New England by total transplant volume, and the only center to offer the full range of services in kidney, pancreas, Islet cell, liver, heart, and lung transplants, including pediatric kidney and liver transplants.

We are seeking a **RN Post-Transplant Coordinator** to join our growing abdominal transplant **team**. The coordinator is responsible for the care coordination of kidney, pancreas, and liver transplant recipients, including but not limited to patient education, managing lab results, organ rejection monitoring, communicating directly with patients and physicians, and scheduling treatments as needed. The coordinator will also provide direct clinical care in the outpatient setting and infusion clinic.

Qualifications:

- Current licensure as an RN in Massachusetts
- Bachelor's degree in nursing or equivalent experience required.
- Minimum of 3 years recent Intensive Care Unit and/or transplant experience
- Masters degree in a clinical nursing specialty and/or transplant certification (CCTC) preferred

Schedule Details:

- Full Time / Day Shift
- 40 hours/week, 10-hour days optional
- No additional on-call responsibilities

Additional Opportunities available within our Transplant Center:

- RN Pre- Kidney Transplant Coordinator
- RN Living Donor Coordinator (Abdominal)
