

Transplant Contract Manager

Methodist Health System, Inc.
Dallas, Texas

Are you ready for a new challenge? Dallas-based Methodist Health System is looking for a Transplant Contract Manager to develop managed care contracting activities for the transplant services as well as assisting in other hospital managed care contracting activities. This position oversees and manages the billing, accounts receivables, and account payable representatives for MTP (Methodist Transplant Physicians) transplant contracting. This position will be the internal resource in transplant economics and market trends.

Methodist Transplant Physicians (MTP) Daily Operations functions:

1. Supervise MTP transplant contract billing/accounts receivables staff.
2. Manage the day-to-day operations of MTP claims submission & account receivables and accounts payables.
3. Audit payments for proper reimbursement from payers as well as to MTP providers and conduct necessary follow up.

Transplant Contracting relationships:

1. Maintain current agreements and negotiate new agreements including Single Case Agreements (SCA's).
2. Stay current with latest developments, advancements, and trends in the field of transplantation issues.
3. Perform market analysis for potential contracting opportunities.

Perform analysis and provide recommendations of transplant contracting rates:

1. Collect and analyze data of financial impact of current agreements, potential agreements, and recommend current process improvement of contracting changes.
2. Work with the legal department in contract review and preparation of other facility agreements.

Do you have a Bachelor \$B!G (Js degree and at least five years of financial analysis and modeling skills?
