

Transplant Nurse Manager – Liver Program

The Miami Transplant Institute is a joint program between Jackson Memorial Hospital and the University of Miami/Miller School of Medicine.

Miami Transplant Institute is hiring a **Transplant Nurse Manager – Liver Program**

The Transplant Nurse Manager (TNM) works with and advises the Department Director in the management, development, direction, coordination and evaluation of the practice of professional nursing within Clinical Transplant Services. Works with staff to model best practices in Transplant Coordination/Nursing. The TNM will supervise and mentor nursing staff in all programs. The role of the TNM is to lead and oversee the Transplant Coordinator/RN and ARNP staff consistent with clinical and regulatory requirements, and the service excellence mission of JMH/Clinical Transplant Services.

Selection Criteria:

- Baccalaureate degree in Nursing/related field required (completed or in progress).
- 3 to 5 years' experience in Nursing within a high acuity are required; 1 years' experience in a management position required. Transplant experience is a plus.
- CCTC (Certified Clinical Transplant Coordinator) or CCTC (Certified Clinical Transplant Nurse) preferred.
- RN required. Florida RN license or eligibility required. American Heart Association (AHA) Basic Life Support (BLS) for Healthcare Providers certification with at least 6 months validity required.

Jackson offers a comprehensive Total Rewards package:

- Market leading salary
- Family friendly, comprehensive medical insurance plans
- 29 Days Annual Personal Leave
- A traditional pension plan with defined benefits
- Tuition Reimbursement and support for professional development and continuing education.
- Relocation Allowance
