Manager, Quality Improvement – Transplant

The Advanced Organ Therapies (AOT) Service Line at California Pacific Medical Center is looking for an experienced professional to lead their quality, compliance, and data programs. The right leader will be a very focused, high-driven registered nurse who desires to join a service line that consists of kidney, liver, and heart transplant; as well as ventricular assist device, advanced heart failure, living donor, HCC, HBP, hepatology, and neuro GI programs. The manager works collaboratively with the physician program leaders, hospital quality leadership, and department chair. This position reports to the Director, AOT Service Line and supervises the Quality Improvement Team, including Quality Coordinators and Quality Data Abstractors and Analysts.

Position Requirements:

- Current RN license in the state of California
- BSN required
- Master’s Degree preferred

Knowledge/Skills:

- Expert knowledge of acute care hospital public reporting in general and ones that are specific to The Joint Commission, and CMS are required
- Knowledge of The Joint Commission, CMS and Title 22 Standards
- Knowledge of management theory, systems analysis, financial/human resources management, organization development
- Sound knowledge of internal and external quality data reporting standards and measure guidelines required
- Expert knowledge in Midas Plus information system required

Experience:

- 3-5 years’ experience in Quality Improvement required
- 2 to 4 years supervisory role experience and demonstrated ability to maintain Department workflow required
- Minimum three years clinical experience required
