Clinical Manager for Kidney Transplant Program

ChristianaCare is currently seeking a full-time Clinical Manager for our Kidney Transplant Program in Newark, DE.

The Clinical Manager provides leadership and supervisory oversight to clinical staff of the Kidney Transplant Program, in conjunction with the transplant physicians and the administrative director. This role is responsible for team engagement, patient relations, policy management, regulatory oversight, patient flow, oversight of the patient records system, facilitating change and staff education.

RESPONSIBILITIES:

Team leadership:

- Coaching and development for a multi-disciplinary team

Program management:

- Clinical operations decision maker.
- Conducts chart reviews to ensure policies and guidelines are followed and accurate documentation is captured.

Regulatory management:

- Assists in maintaining compliance with requirements of external agencies specifically related to Transplant, including CMS, CMS F-QAPI, UNOS/OPTN, The Joint Commission, and the ESRD Network.
- Maintain and complete all data submissions as required by UNOS, JCAHO and/or other agencies.
- Quality Assurance Performance Improvement (QAPI):
- Works closely with the CCHS Performance Improvement Manager and Patient Safety Accreditation Manager to ensure QAPI standards are aligned with the broader organization.
- Prepares and updates QAPI dashboard and co-leads scheduled bi-monthly QAPI meetings with surgical director.

EDUCATION AND EXPERIENCE REQUIREMENTS:

- BS/BSN in Nursing or other licensed clinician in a related field. Advanced degree preferred.
- Minimum of five years of related experience in health care. Organ transplant experience preferred.

WORK SCHEDULE:

8:00AM-5:00PM office setting with some on-call rotation coverage

Kidney Transplant Clinical Program Manager

Memorial Regional Hospital
Hollywood, Florida

Memorial Transplant Institute and Joe DiMaggio Children's Hospital have recently celebrated 150+ kidney transplants and the second chances they represent for our adult and pediatric patients. Join us now for an amazing opportunity within a culture of patient- and family-centered care.

As Kidney Transplant Clinical Program Manager, you will be responsible for directing and coordinating the daily clinical operations of the kidney transplant service line in order to facilitate our multidisciplinary team approach. Duties include overall supervision of all clinical services delivered to kidney transplant and living donor patients; management of clinical services provided by RN Transplant Coordinators across the continuum of care; and oversight of inpatient, outpatient, and all transplant clinic care delivery sites.

Qualifications:

- Bachelor's degree in Nursing; Masters preferred
- Minimum 3 years of experience within a kidney transplant program as an RN
- 1 year of management/supervisory experience preferred
- Valid Florida Registered Nurse license

Kidney transplantation demands a comprehensive team effort, and we're fortunate to have a team of high caliber, dedicated physicians, nurses, intensivists, perfusionists, and laboratory medicine experts. Come share in our bold and confident vision. Find a true home for your career. And be part of a story that continues to unfold.

Transplant Coordinator III / Nurse Practitioner

**UC Davis Medical Center
Sacramento, CA**

**Transplant Coordinator III/Nurse Practitioner
Salary Range: \$6,131.51 - \$8,514.53 Biweekly**

The Transplant Coordinator (TC) NP coordinates care for adult and pediatric patients in end stage organ failure across the continuum of transplant care (pre-transplant, during transplant, and post-transplant). (evaluation, inpatient, post-transplant). The TC NP is the process expert regarding transplant phases of care and educates patients, caregivers and hospital staff about transplant-specific topics. The TC NP collaborates with members of the health care team to enhance patient care and serves as investigator, consultant, and leader. The TC NP makes clinical judgments based upon a synthesis of current research, concepts, principles, theories, and outcomes to solve complex problems.

Required Qualifications

- At least two (2) years of relevant experience including transplant coordination, cardiology experience, or critical care experience
- National board NP certification in an aligned specialty with the practice area
- Graduation with a Master's degree, DNP or PhD in Nursing from an accredited School of Nursing
- Possession of valid California RN and Nurse Practitioner license without restrictions
- Furnishing license. • DEA within 3 months of hire
- Current BLS and CPR certifications

Applicants are encouraged to upload license and certification if required of the position.

- Certified Clinical Transplant Coordinator (CCTC)
- Doctorate Degree

Beth Israel Lahey Health

Director of Heart Transplant & Specialty Program

Boston, MA

The Beth Israel Lahey Health (BILH) adult heart transplant program, based at Beth Israel Deaconess Medical Center (BIDMC), will offer comprehensive care for end-stage heart disease. Launching in 2023, the program will take an integrated approach to addressing the complex needs of patients with heart failure and their families. The program's multidisciplinary care team -- from Cardiology, Cardiac Surgery, Nutrition, Pharmacy, Social Work and other departments -- will work together to expand community-centric services in a cost-effective manner.

The heart transplant program's launch in 2023 will coincide with the opening of BIDMC's new inpatient building on the West Campus. The state-of-the-art space is designed to optimize the experience for both patients and providers.

Phoenix Children's

TRANSPLANT COORDINATOR/SOLID ORGAN

Join a nationally recognized & growing pediatric hospital system!

Relocation assistance provided

Department: PCH-MAIN | Post Liver Transplant

Category: Nursing

Location: Phoenix, Arizona

Phoenix Children's is hiring an experienced Transplant Coordinator for our liver transplant team. This position will work alongside a team of 1 transplant assistant, 2 other coordinators, 3 physicians and 4 APP's. This is an opportunity to join a dynamic and growing department, supporting the care of several patients at any given time. The incumbent will coordinate care between providers, hospital visits (admits/discharge); order/review lab work and most importantly, provide education on the transplant process and what to expect for the patient and their families. They will also be responsible for consenting and listing of new transplant patients. The ideal candidate will thrive in a very fluid environment and be adaptable to change that is expected for a developing program/unit. Teamwork, collaboration and strong communication skills are the characteristics of someone who will be successful in providing the best care to the patients and families. This position will be very hands-on and will require the incumbent to work alongside providers as they make rounds every day to document the progress prior to and after transplant surgery.

Qualifications: BSN 3+ years of clinical practice/leadership experience; 2+ years of organ transplant experience. This is a M - F position; NO WEEKENDS/HOLIDAYS
