Clinical Transplant Coordinator

The Core Competencies for the Transplant Coordinator outline coordinator competencies that are broad in scope to acknowledge the diverse professional practices unique to each transplant center. They are meant to be applicable to both adult and pediatric age groups and cover eight categories, including:

1. Transplant Referral and Evaluation
2. Pre-Transplant Waiting Period
3. Peri-Operative Period
4. Post-Transplant In-Patient Period
5. Post-Transplant Out-Patient Period
6. Living Donation
7. Professional Development
8. Professional Practice
