Target Audience

The Introductory Course is designed to provide basic information to procurement and transplant professionals. Due to the intense nature of the course, faculty members suggest that participants have a least one month of on-the-job experience in transplantation or donation before attending the course.

Learning Outcomes

Attendees will be able to apply the knowledge received from this course to perform the role of the transplant coordinator or the procurement coordinator. Attendees will be able to verbalize the role and responsibilities of these specialty positions.

Criteria for successful completion includes attending each session within a track and turning in an evaluation form.

Registration

Members: \$995

Non-Members: \$1195
