Track Intent

Procurement

The Procurement Track encompasses donor management best practices, innovative methods to maximize donation, and enlightening case studies. New and experienced procurement coordinators will benefit from attending and networking with colleagues from across the country.

Abdominal Transplant

The Abdominal Track focuses on increasing innovative processes, multi-organ transplants, living donation, staffing concerns, and various other kidney and liver transplant topics. Come learn best practices from programs of all sizes.

Hospital Engagement

This year's Hospital Engagement Track will highlight key practices for engagement! They include: Improving relationships with donor hospitals, physician engagement strategies, powerful tools to create a positive donation culture. Please plan on attending the Hospital Engagement Track!

Thoracic Transplant

This year's Thoracic Track focuses on managing challenging issues for both pre and post-transplant patients. Topics include the psychosocial readiness assessment for heart, end stage heart failure and transplant, OCS vs. NPR for DCD donors. Please plan to attend!

Family Services

Make sure to attend the Family Services Track this year! There will be several interesting topics, all focused on communicating effectively with both families and hospital staff including pediatric DCD. Don't miss out on this great learning opportunity!

Transplant Plenary

Don't miss the Transplant Track this year. Topics include strategies for improving transplant programs, innovative staffing models. Join us for this exciting opportunity to learn and network!

Special Interest

The Special Interest Track provides an opportunity to learn about additional topics including cultural and language considerations, physician training programs, volunteer learning. Don't miss out on these great learning opportunities!

Preservation Track

This track will focus on topics that bring the latest technological advances to further the field of preservation. We will also explore best practices when faced with pushing the boundaries with liver HMP, and perfusion process implementation. All Preservation and Perfusion professionals should plan on attending!

Hospital Engagement Pre-Conference

Monday, August 7, 2023

Hospital Engagement staff maintain a close, collaborative relationship with hospitals throughout the United States, to help define, shape, and guide their roles in the donation process. Please join us for a one-day conference divided into two courses to educate both the new and advanced HD coordinator.

Core Curriculum for Hospital Engagement:

The Hospital Development Core Curriculum (HD) is designed to share and teach “best practices” to HD professionals and any OPO professionals wishing to develop and grow HD skills. It is recommended that those attending this course should have at least three months of experience in HD.

- **The Impact of becoming an Influencer**
- **The Foundation of Hospital Engagement**
 - **Connecting the Why**
 - **DCD: Best Practices**
- *Open Mic Discussion: What are the biggest challenges you are facing?*

Advanced Hospital Engagement:

Hospital Engagement leadership requires advanced practice skills to execute their role effectively. The Advanced Hospital Engagement Workshop is designed to share and teach “best practices” to advanced hospital engagement professionals to develop and grow advanced leadership skills.

- **The Impact of becoming an Influencer**
- **What Is My Title?**
- **NRP – Do You Know Me?**
- **Preparing for the Future: How Hospital Development Professionals Can Impact the new CMS Metrics and Tier Status**
- **DCD: Best Practices**
- *Open Mic Discussion: What are the biggest challenges you are facing?*

Pre-conference fee: \$425 member or \$525 non-member

Preservation Track

Wednesday, August 9, 2023

Throughout the meeting we will present topics that will have a significant interest to our Preservation/Perfusion/Recovery professionals. On Thursday we will introduce a new track dedicated to topics specific to the field of preservation.

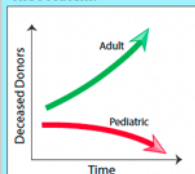

Preservation Track:

- 10:15 – 11:00 **Growing Use of Perfusion for Heart, Liver and Lung**
Presented by: Rebecca Goff, UNOS
- Pushing the boundaries with Liver HMP**
Presented by: Joel Lindower, University Hospital, NJ
- 11:00 – 11:45 **Operationalizing Liver Hypothermic Machine Perfusion at an OPO**
Presented by Jake Finnerty, DonnorConnect
- 12:55 – 1:40 **Ex-Vivo Lung Perfusion Process Implementation**
Presented by: *Kourtney Mays* Texas Organ Sharing Alliance
- 1:40 - 2:25 **Second Chance Lungs: A Look at Effective Collaboration Between OPO and Lung Bioengineering**
Presented by: Lauren Nicks Silla Sumerlin, Iowa Donor Network
- 3:05 - 3:50 **Lungs Transplanted After a Late Decline Utilizing Normothermic Ex vivo Lung Perfusion and Post-OR Expedited Lung Allocation**
Presented by: Christopher Gravelyn, CPTC, Gift of Life Michigan

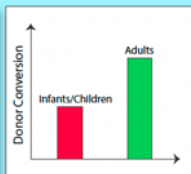

Pediatric Focus Group

Improving **PEDIATRIC** Organ Donation

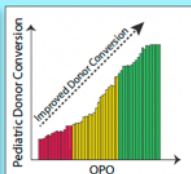

The Problem:

The number of pediatric deceased organ donors has declined over time

Donor conversion rates are lower in children compared to adults

Significant variability across OPO's in pediatric donor conversion

Approach:

- ◆ Focus groups will be held at the NATCO Annual Meeting (8/7 - 8/10/23) in Orlando, FL
- ◆ Presentation of data pertaining to pediatric organ donation
- ◆ Robust discussion of optimal strategies to maximize pediatric donor conversion

Goal:

- ◆ Generate a consensus statement of OPO best practices for pediatric donor recruitment

*Pre-registration is requested.

NATCO is partnering with Carnegie Mellon University to provide an opportunity to participate in a research focus group on improving pediatric organ donation. This presentation will focus on data pertaining to the approach and authorization of pediatric organ donation. You are invited to participate in a robust discussion regarding best practices and optimal strategies that support and maximize pediatric donor conversion.

Calling all problem solvers! Join UNOS at our NATCO Innovation Event Aug. 7th-10th

[United Network for Organ Sharing](#) invites transplant professionals to arrive a day early to the NATCO 48th annual meeting to meet with UNOS staff members for a collaborative innovation event.

On Monday Aug. 7th from 2:00-5:00, UNOS IT team members will be holding an event to discuss UNetSM issues and enhance your user experience in the system. Innovation event registration is available through the conference registration process.

“If you are known as a problem solver or efficiency expert, we’d like to hear from you,” said UNOS IT customer advocacy service owner Emily Kneipp. “We are looking for your help to uncover system problems, resolve UNetSM difficulties and devise simple solutions, so that you can do what you do best — match organs and save lives.”

At previous innovation events, UNetSM users collaborated with UNOS staff members to:

- Devise an easy way to package and **label living donor organs** through TransNetSM.
- Implement an enhancement to DonorNet[®] that resolved a roadblock that OPO users were encountering when sending electronic organ offers through the system due to entering an end sequence number that was beyond the maximum. Innovation event attendees devised a **solution that informed users of the maximum sequence number allowed on the same page** the user enters the information on, which resolved the issue.
- Create **shareable custom reports in WaitlistSM**.
- Add a **donor identification search function** to the organ offer report in DonorNet[®] that allows transplant hospital users to easily find a donor.

“Now we need your help to identify additional inefficiencies and collaborate with us to fix them,” Kneipp said. “We are looking forward to engaging with UNet users before the NATCO annual meeting to improve their experience on UNet.”

Disney Springs

Tuesday, August 8th, 2023

6:30pm – 10:30pm

Disney Springs formally known as Downtown Disney is an exciting up and coming entertainment complex housing restaurants, shows, bowling, Disney experiences and much more.

Disney Springs includes four outdoor neighborhoods interconnected by a flowing spring and vibrant lakefront.

- **The Town Center**, offers a sophisticated mix of shopping and dining along with a promenade where guests can relax, refresh and reconnect.
- A colorful and thriving commercial district called **The Landing** with inspired dining and beautiful waterfront views.
- The family-friendly **Marketplace** will delight guests of all ages by combining new experiences, such as an over-the-water pedestrian causeway, along with classic Disney favorites, including an expanded World of Disney store.
- The **West Side** provides an exuberant atmosphere with lively entertainment, along with a series of new elevated spaces that provide both shade and an overlook to the activity below.

This event is on your own and a great way to have fun and spend time with your donation partners and colleagues. Click [here](#) for more information on Disney Springs!

Buses will run to Disney Springs from the Grand Cypress every 45-minutes, dropping guests off at Disney Springs and returning to the Grand Cypress. The last shuttle will pick guests up from Disney Springs at 10:30pm.
