

## Professional Development

### Job Postings Descriptions

#### RN Coordinator (Hepatobiliary/Transplant - Main OR)

Full-Time, 10-Hour Days

For Keck Medicine of USC, just being good isn't good enough. Our legacy is about more than just medicine or academic achievement - it's about exceeding the standards of care for each patient. Join us and help us continue to provide beyond exceptional medicine.

The successful applicant will use their extraordinary leadership abilities and sound clinical skills to actively assist the Director of Perioperative Services and the OR Charge Nurse in coordinating the day-to-day activities of the operating room with a specific focus abdominal transplants and hepatobiliary surgery. You will take a leading role in coordinating assignments, in-servicing and orienting new staff, performance improvement, job performance evaluations, staffing, scheduling and working with physicians for improved outcomes.

Requirements include a BSN (MSN preferred, CNOR referral) and 3+ years of experience as an OR nurse (5+ years preferred); service lead and scrubbing experience preferred. Must have valid CA Registered Nursing license, BLS from the American Heart Association, and Fire and Safety Certification.

As a member of the Keck Medicine of USC family, you'll enjoy a wide array of benefits, including substantial tuition benefits at USC for employees and their families! We also offer exceptional healthcare, retirement and quality of life programs designed to help you make the most of your USC experience. Apply today!
